

## **Data Based Decisions.**

This is a new major so the assessment plan is new in 2017 and we will update this section as we gather our information. We have based on some early feedback expanded the range of our world affairs courses and we were able to create a scholarship that can help students going on an international practicum. In addition in we recently developed a Global Communication Club which has planned information meetings, meetings with faculty on issues of interest, and fun activities each semester over the last year. This has developed a strong feeling of community in program and we believe we are headed in the right direction. More information will be following.
