

Philosophy Learning Objectives

1. To improve students' critical thinking skills.
2. To teach each student how to read and comprehend challenging texts.
3. To teach students how to write lucid, rationally justified, concise essays.
4. To provide students with the historical background of philosophical issues, accounts of how these issues develop, and what their implications are for various fields of study.
5. To acquaint students with the moral and ethical principles that determine our social mores, laws, and value judgments.
6. To help students master methods of inquiry and research appropriate to the discipline.
7. To provide a rigorous foundation for students intending to pursue education in philosophy graduate, law, or other professional schools.
